

Expression of interest 2018-2019

Abstract

The Australian Living Lab Innovation Network has been developing over the past three years, establishing a Board of operations and running two successful symposia. We have presented at European Network of Summer Schools over the past 4 years and supported the establishment of a number of Living Labs in Australia in that time. The Co-Directors, Amanda Third, Gareth Priday and Phil Donaldson are passionate about enabling people to create a future that improves people's quality of life, the prosperity for all, and a healthy planet.

Phil Donaldson

Acting Chair on behalf of Co-Directors Amanda Third and Gareth Priday

Membership Expression of Interest

CALL FOR EXPRESSIONS OF INTEREST FROM INTERESTED PEOPLE/ORGANISATIONS/COMPANIES TO BECOME MEMBERS OF THE AUSTRALIAN LIVING LAB INNOVATION NETWORK (ALLIN) FOR 2018 -2019

The Australian Living Lab Innovation Network is an independent platform providing support to the growth of living lab culture in Australia. Our aim is to enable Living Labs to flourish across multiple themes and practices in Australia and to link them into the global living lab network. ALLIN seeks to engage with groups and individuals with a commitment to co-design, co-creation, equity, openness, value creation and citizen engagement in innovation and an investment in creating the future culture of living labs in Australia.

ALLIN is a not for profit organisation (PTY LTD) which has three Co-directors and is governed by a Board.

Specifically, ALLIN aims to:

1. Advance the culture and professionalism of Living Labs in Australia and globally
2. Support the development of new and emerging living labs in Australia
3. Foster collaboration between existing and emerging living labs in Australia and internationally, with a particular focus on Europe and Asia-Pacific
4. Enhance quadruple helix, human-centred innovation approaches across universities, business, industry and government
5. Nurture collaboration on strategically relevant topics such as IoT entrepreneurship, smart cities and communities, health, wellbeing and ageing
6. Provide leadership for the development of Living Labs nationally and regionally
7. Provide avenues for information sharing among Living Labs and universities, business, industry and government
8. Develop a best-practice practitioner base
9. Promote research that enhances living lab practice and value adds to Living Lab outcomes
10. Develop the network in keeping with the openness, transparency, and citizen innovation of living labs globally.

We are looking for people or organisations that are interested in being members or lead partners into development of living lab opportunities locally, nationally and globally.

Membership Benefits

1. State, National and International networking and connections for Living Labs across Australia
2. Contribute to a quarterly newsletter
3. Contribute to ALLIN blog to further ALLIN objectives
4. Contribute to the development of an open living lab culture and knowledge in Australia
5. Bi monthly discussion forums sometimes based around specific themes
6. Representation of network members by ALLIN at ENOLL
7. Access to materials and activities that support Living Labs
8. Acknowledgment of Members at events
9. Opportunities for international collaboration for research and business
10. Opportunity to present at conferences and symposiums
11. Participate in an interest theme
12. Early Bird warnings for events

Categories of Living Lab Membership

| Membership | Description |
|---------------------|---|
| Full Living Lab | Established Living Lab which has ENOLL accreditation or has been established for 3 years and/or potentially meet ENOLL standards with a program of research and activities in a well-defined field of intervention impacting a 'real world' issue and operating like a living lab. |
| Emerging Living Lab | Organisations or individuals in the early stages of establishing a living lab, and seeking to become full Living Lab Member of ALLIN |
| Lead Partners | Organisations involved in research, business government local government or community groups that align with Living Labs culture and have – or aspire to develop - Living Labs experience in Australia or the region |
| Friends | Individuals, organisations and groups who have an affinity for living labs professionally, personally or in communities |

Lead Partners

ALLIN is seeking expressions of interest from parties who would like to become lead partners of ALLIN.

Lead partners provide resource and funding support to enable ALLIN to operate and build local living labs' networks and capability for national and global collaboration, leveraging our ongoing relationship with the European Network of Living Labs.

Lead partners might be research institutes; federal, state or local government entities; technology companies; finance companies; not-for-profits; industry bodies; or corporations and businesses with an interest in growing living labs as an innovation enabler to improve quality of life for people and the planet.

Lead partners commit to supporting ALLIN for one to three years. Lead partnership status is an opportunity to directly shape the development of living labs locally, nationally and globally and comes with marketing and co-branding opportunities.

If you would like to become a lead partner, please contact us directly.

Thank you for your interest and time in responding to this request.

Please contact one of us via email if you would like to discuss further phil.donaldson@sustainsa.com.au; gareth.priday@gmail.com; A.Third@westernsydney.edu.au

Kind regards
